

This download includes 5 pages of classroom labels (4 with writing, and 1 blank).  
These are for personal use and may be used in public school teachers classrooms.  
These are not for resale and I ask if you want to share that you direct people to the blog  
post instead of sharing the pdf link! You may post these on your blog with a proper link  
back to my blog.

I hope you find these classroom labels useful!
